Ama Dablam offers a once in a lifetime journey that offers a stunning landscape and breathtaking views of the Himalayas. Located south of Mt. Everest (8,848 m) and Mt. Lhotse (8,516 m), Mt. Ama Dablam has a pyramid shape with sharp exposed ridges from all sides.

The word Ama Dablam means Mother Necklace. The appearance of the mountain is described in this way; the long ridges on each side are like the arms of the mother protecting her child, whereas the hanging glacier resembles double-pendant containing the images of gods worn by Sherpa women. During climbing, you get to see the rich culture and lifestyle of the locals. Likewise, you will also visit many ancient stupas and monasteries on the way.
